

# Leasing a Commercial Printer in Utah

 [cesr.com/leasing-a-commercial-printer-utah/](https://cesr.com/leasing-a-commercial-printer-utah/)

**Are you looking to lease a commercial copier or printer in Utah?** There are a lot of options when it comes to specific copy machines and their leases; if you find yourself overwhelmed by the choices, don't worry! We are here to help you identify your copy needs and help you find the copier lease or purchase that works best for you and your business.

After computers, many businesses depend on their photocopier more than on any other piece of equipment. Today's photocopiers are much more than those used in past decades; in addition to making copies, copy machines today can edit images, sort and/or staple packets of copies, eliminating the need to collate and staple by hand.

## Copier Leasing from CES&R Printing Services

When you lease a copier from [CES&R](https://cesr.com), you will quickly realize why our unique approach to pricing sets us apart from the competition. **One set price for leasing a commercial copier includes the equipment, toner and even copy/print paper!** There are also **no additional costs if service is needed** for your printer or copier, and our large service staff means we are typically at your business location within four hours for service calls.

You will never be asked to pay any up-front costs for this program. Best of all, you don't need to carry and manage an inventory of paper and toner for your copier.

## Why Lease a Commercial Printer or Copier?

Leasing a commercial printer or copier is a smart move for a lot of reasons. When you lease, you can have the best of both worlds by having **the most up-to-date equipment to help your business stay competitive, without tying up your business capital by purchasing equipment.**

You get the chance to switch to another copier or printer at the end of your lease period at a new affordable payment plan. And, when you lease from CES&R, you may also be able to write off your monthly lease payments. Of course, you will want to talk to your accounting professional to confirm tax deductibility for your own business.

## How Much Does It Cost to Lease a Copier?

You have a budget that you need to stick to, and we understand that. We will work with you to help you get a commercial copier that meets your needs without breaking the bank. ***Your specific cost to lease a copier or printer will depend on a number of factors, such as:***

- Do you need to print in black and white, color, or both?
- What types of “finishing” options does your business need? These might include sorting, stapling, punching holes, or “saddle-stitching” pamphlets.
- How much paper do you expect to go through in a week? In a month? This will help determine what paper capacity is right for you, and how many paper trays you need for your copier.
- Does your business require the fastest printing speeds?
- How long will your lease last?

After reviewing all of these factors with you, we’ll be able to identify what equipment will best meet your needs, so you have an idea of what type of lease price to expect. We carry brands from top manufacturers including [Kip](#), [Canon](#), and [CopyStar](#).
